SUMMARY OF MEDICATION RULES

Clenbuterol

Effective July 18, 2012 the authorization for a threshold level for clenbuterol as currently allowed under CHRB 1844 (e)(9) and 1844(f) was suspended for all breeds at all race tracks in California. Accordingly, clenbuterol is treated as other drugs not specifically authorized by the Board: If the lab detects clenbuterol under laboratory's standard operating procedures, the finding will be reported as a violation. The Maddy lab has very sensitive testing for clenbuterol. The drug can be readily detected at low picogram levels in both urine and blood. The CHRB recommends a 21 day withdrawal time provided the clenbuterol is the FDA approved Ventipulmin form of clenbuterol used at the standard therapeutic 5cc twice a day dose (0.8 micrograms per kilogram twice a day). Higher dosages will require longer withdrawal times.

Phenylbutazone and Flunixin

The CHRB has changed the levels permitted for phenylbutzaone and flunixin under Rule 1844 (c) effective March 17th, 2012. The permitted threshold for phenylbutazone is 2 micrograms/ml of plasma and the permitted levels for flunixin is 20 nanograms/ml of plasma.

Additional information is available on the CHRB website (www.chrb.ca.gov), from the CHRB official Veterinarian at Del Mar (858,755-1141, ext 3860) or the CHRB's Equine Medical Director (rmarthur@ucdavis.edu; 626-574-6351).

BLEEDERS:

Registration with the Official Veterinarian for first time bleeders and out of state bleeders must be completed prior to entry time to be added to the California Bleeders list. Bleeder status must be declared at entry time.

Additional bleeder rules and information are listed under CHRB Rule 1845.

PERMITTED MEDICATION:

See CHRB Rule 1844.

COGGINS TEST

Horses shipped from out of state are required to have a current negative Coggins test within the last **six months**. This should accompany a health certificate from an accredited veterinarian.

SHOCK WAVE THERAPY:

All SWT machines are to be registered with the CHRB Official Veterinarian and stored at the equine hospital. The use of SWT machines is limited to

veterinarians only. Horses that have had a SWT treatment shall not race for ten days following a treatment. All SWT treatments are to be reported to the CHRB Official Veterinarian on a separate confidential sheet. Any SWT that is not performed within the designated area by the Equine Hospital will result in the confiscation of the machine. Confiscated machines will not be returned until after the close of the meet.

Shipping Requirements

Horsemen shipping to Del Mar are reminded of the following five key requirements for running a horse at the track:

- Lasix/Official Bleeders' Certificate
- California Owners' and Trainers' Licenses
- Current Coggins Test
- California Workers' Compensation
- Foal Certificate Papers

If you have any questions about any of these items, please call the racing secretary's office (800) 874-8443 or 858-755-1141 in advance.

CALIFORNIA'S INCENTIVE PROGRAMS

IT PAYS TO BREED AND OWN A CALIFORNIA-BRED

In 2012, the breeders and owners of California-bred Thoroughbreds and the owners of California-based stallions received over $12 million in premiums through the California Incentive Program. In addition, special racing opportunities afforded California-breds in 2012, by the race-per-day rule at California tracks, provided more than $25 million in purses for races restricted to California-breds.

As a result of legislation recently amended in 2009, total monies available for incentive awards are distributed as follows: 10% to the California-bred race fund, 15% to the Maiden Bonus Program, a 20% bonus on the winner's share to the owner of a California-bred Thoroughbred horse conceived by a registered eligible Thoroughbred stallion that finishes first in an open qualifying race, and a 10% bonus on the winner's share to the owner of a California-bred Thoroughbred horse that finishes first in an open qualifying race that was not conceived by a registered eligible Thoroughbred stallion. The Thoroughbred Owners of California (TOC) is adding an additional 10% for Cal-bred winners of allowance races making the bonus 30%. A qualifying race is all non-claiming races excluding stakes with a purse of at least $15,000, as are open non-maiden claiming races with a claiming price of $40,000 or more at this meeting. After these deductions, 75% of the remainder is to be paid as breeders awards, and 25% of the fund is to be paid as stallion awards. The legislation also calls for owners awards to be distributed at the same time as the purse, breeder and stallion awards to be paid once a year, and 2013 awards will be paid during March 2014.

The breeder of a registered California-bred Thoroughbred will receive a pro-rated share of total monies available for breeders. These awards are payable for finishing first, second, or third in any race run in California, or in a graded stakes outside California, but within the United States.

The owner of a registered California-based stallion will receive a pro-rated share of monies available for stallion owners based upon the earnings of the stallion's California-bred or California-conceived progeny from qualifying wins in California and also for finishing first, second, or third in all stakes within California and graded stakes outside California but within the United States.

The California-bred race fund will provide for the promotion of California-bred races and will provide for or supplement purses for California-bred races.
