In addition, BCL may, in BCL's sole discretion, refuse the pre-entry or subsequent entry of any horse that has tested positive for any anabolic steroid or other ARCI prohibited substance in out of competition testing conducted in connection with BCL's Breeders' Cup Challenge Series in the year of the Championships or similar testing conducted by Breeders' Cup Limited. *See BC Condition of Entry (page 16).

RACE SCHEDULE & CONDITIONS

Refund of Horses of Racing Age Nomination

Horses of Racing Age nomination fees are not refundable except in the event the nominated horse is scratched after pre-entry to a Breeders' Cup World Championships race in the year the horse was nominated because of sickness or disability certified by the track or state veterinarian or pursuant to veterinary certification acceptable to Breeders' Cup Limited, in BCL's sole discretion, and such determination shall be final.

Notwithstanding the foregoing, Horses of Racing Age nomination fees made prior to August 1, 2017 are non-refundable for any reason.

Travel Awards

All Championships starters that are based outside of California will receive a \$10,000 (US) travel award if stabled at a North American location or a \$40,000 (US) travel award from outside of North America. Any determination of eligibility for receipt of travel awards shall be made by BCL in its sole discretion and such determination shall be final. After starting, the travel award will be deposited in the owner's horsemen's account at Del Mar.

Breeders' Cup Condition of Entry

As a condition of entry for any BCWC race, no horse within six months of the BCWC shall test positive for any anabolic steroid or any other prohibited substance described under the ARCI prohibited substance list. Any horse testing positive for anabolic steroids or other ARCI prohibited substances in a BCL out-of-competition test sample during the six-months prior to the BCWC will be ineligible to participate in BCWC.

Breeders' Cup Out of Competition Testing

Breeders' Cup Limited will be conducting out of competition (OOC) testing on all 2017 Challenge winners and any other possible starters prior to the Breeders' Cup World Championships. This testing is separate from what the California Horse Racing Board may perform. The Breeders' Cup OOC testing will be performed by the The Kenneth L. Maddy Equine Analytical Chemistry Laboratory at UC Davis. Routine testing at the Maddy Lab meets or exceeds the protocols established by TOBA and required by Breeders' Cup World Championships to ensure that the highest possible level of testing is performed on all samples.

The primary focus of OOC testing for the Breeders' Cup World Championships will be for Epogen, darb-EPO, and other blood doping agents including certain animal venoms, growth hormone and the beta-2 agonists ractopamine and zilpaterol, anabolic steroids and any other drugs or medications prohibited by CHRB regulations. Out of competition testing may be conducted at any time. Racing officials from other state jurisdictions and internationally will be asked to assist BCL in obtaining blood samples for OOC testing. Horses must be timely produced for testing if requested. A horse may be prevented from entering unless the owner and trainer comply with any pre-race testing request. A horse testing positive in the six months prior to the BCWC for anabolic steroids, Epogen, darbEPO or other blood doping

RACE SCHEDULE & CONDITIONS

agents or other ARCI prohibited substance will be prohibited from entering the BCWC races in the same calendar year.

Final Stage – Entry Procedures, closing 10 am, October 30

Entries for all Breeders' Cup World Championships races will close promptly at 10:00 am (PDT) on Monday, October 30, 2017, in the Breeders' Cup Racing Office at Del Mar only. At the time of entry a maximum of fourteen horses and two also-eligibles may be accepted for entry in each race based on the order of preference in the rankings established at pre-entry, except for the Turf Sprint which will start twelve. **A horse will be permitted to enter two Breeders' Cup World Championships races under the following conditions: (i) the horse is eligible for both races; (ii) the races will be contested on different days; (iii) the pre-entry and entry fees are paid for both races; and (iv) neither race is oversubscribed. A horse may not double-enter Breeders' Cup World Championships races if the effect of such double entry is to exclude another horse from competing. A horse entered in two Championships races on different days may not compete on both days.** Pre-entry and entry fees will not be refunded for the race in which the owner of the double-entered horse elects not to compete. Scratch time for all Championships races to be contested on both Championships Friday and Championships Saturday will be 8:00 am (PDT) on Friday, November 3, 2017.

Also-Eligible Horses

There may be up to two (2) also-eligible horses for each Championships race. The also-eligible horses will be designated in accordance with the Breeders' Cup Racing Directors/Secretaries Panel's order of preference for each Championships race that is oversubscribed at the time of pre-entry. See Field Selection System on page 32.

Minimum Entry Qualifications for Breeders' Cup World Championships Runners

Breeders' Cup World Championships Eligibility Rule:

The following is for any 3-year-old and older horse that has broken its maiden.

Any horse that has started for \$15,000 or less and has not won for \$20,000 or more in the previous two (2) years or has not finished second, third, fourth or fifth for \$20,000 or more since running for \$15,000 or less is not eligible to be pre-entered, to be entered or to run in a Breeders' Cup World Championships race.

The following is for any maiden 2-year-old or older, which has started in a Maiden Claiming race of \$32,000 or less.

Maidens that have started in a maiden race of \$18,000 or less will not be eligible. Maidens that have started in a maiden race of \$32,000 or less at ANY TIME and have not finished second, third, fourth or fifth in a maiden race greater than \$18,000 within their last four starts will not be eligible. Horses must start in at least four maiden claiming races for this rule to apply.

RACE SCHEDULE & CONDITIONS

Entry Fees:

Entry fees are payable to Del Mar Thoroughbred Club.

Refund of Pre-Entry or Entry Fees

Pre-entry and entry fees for nominated horses are nonrefundable except in the event of sickness or disability certified by the track or state veterinarian, or by veterinary certification acceptable to Breeders' Cup Limited, in BCL's sole discretion and such determination shall be final, or in the event a horse is not selected by the Racing Directors/Secretaries Panel to enter the race of first choice or in the event a horse does not draw into the body of the field at scratch time or the horse is scratched by an authorized racing official.

Should a pre-entry fee be paid of greater amount than that required for a designated race, the excess balance will be refunded or may be applied to entry fee requirements for the race actually entered. (For example, if a pre-entry fee of \$30,000 is paid in anticipation of entering the Breeders' Cup Turf and the horse is actually entered in the Breeders' Cup Mile instead – requiring a \$20,000 pre-entry fee – then the excess \$10,000 may be applied to the fees due at the time entries are taken.)

Purse Distributions are Noted on Race Conditions

- Note 1** Owners' purse distribution will be based on official order of finish.
- Note 2** All unpaid travel awards will remain the property of Breeders' Cup Limited.
- Note 3** Owner/nominator must ensure that BCL has current contact information for the owner/nominator. BCL will make reasonable efforts to locate owners/nominators to pay awards. If BCL does not locate an owner/nominator for the payment of an award and the owner/nominator does not claim the award within three (3) years from the date of the race upon which the award was determined, the owner/nominator forfeits all claims to the award and it reverts to BCL.
- Note 4** Purse distributions noted on race conditions apply to races with five (5) or more starters.

Nominator Awards

Horses that finish first through fourth in any Breeders' Cup World Championships race will earn a foal nominator award and it will be paid to the person who nominated the horse. A stallion nominator award will be paid to the person who nominated the sire of the horse to Breeders' Cup. Stallion nominator awards will not be paid to EBF nominated stallions who are not BCL nominated. Stallion nominator awards will be paid to nominators under the International Breeders' Cup program in accordance with the rules of that program and a copy of these rules may be obtained by calling Breeders' Cup Limited at (859) 514-9423.

The announced guaranteed purse of each Breeders' Cup World Championships race will not be increased by pre-entry or entry fees collected prior to race day. Nominator awards are not included in the guaranteed purse. Nominator awards will be paid directly by Breeders' Cup Limited.

RACE SCHEDULE & CONDITIONS

Breeders' Cup Field Selection System (For Races That Oversubscribe)

A maximum of 14 starters are allowed in each of the 13 Breeders' Cup World Championships races with the exception of the Turf Sprint which will start twelve. Breeders' Cup Limited has adopted a field selection system to select runners in the event fields are oversubscribed. **This system ranks horses in order of preference based upon (i) wins in Breeders' Cup Challenge races, (ii) a point system and (iii) the judgment of a panel of racing experts.** The first two criteria will assign a maximum of seven horses (or all Challenge winners) for fields limited to 14 starters and a maximum of six horses (or all Challenge winners) for fields limited to twelve starters. The field selection system will be implemented, as necessary, following the taking of pre-entries on October 23, 2017 to officially rank the oversubscribed fields. The Racing Directors/Secretaries Panel (the "Panel") will rank all the horses pre-entered in the oversubscribed races as described below. After pre-entry, any vacancies in the fields will be filled by horses in order of panel preference.

Breeders' Cup Graded Stakes Points

Specific point values are assigned to first-, second- and third-place finishes in stakes throughout the United States and/or Canada from January 1 through the pre-entry deadline date of October 23, 2017 that have been granted graded status by the American Graded Stakes Committee of the Thoroughbred Owners and Breeders Association and/or by the Jockey Club of Canada. International Group races outside of the U.S. and Canada have no point value.

Based on this system, win, place and show horses in Grade I stakes earn ten, six and four points, respectively. The top three finishers in Grade II stakes earn six, four and two points, respectively, and in Grade III races the points earned are four, two and one, respectively.

Breeders' Cup Graded Stakes Points

	Win	Place	Show
Grade I	10	6	4
Grade II	6	4	2
Grade III	4	2	1

Except for the four two-year-old Championships races, Graded Stakes points for dirt races will be the only points considered for horses pre-entered in dirt Championships races and Graded Stakes points for turf races will be the only points considered for horses pre-entered in Turf Championships races. All Graded Stakes points will be considered for the four two-year-old Championships races.

NOTE: Challenge wins or Graded Stakes points will have no bearing on ranking after pre-entry selection.

RACE SCHEDULE & CONDITIONS

Selection Procedures

In the case of an oversubscribed 14- or 12- horse field, the first horse(s) selected will be the winner(s) of Breeders' Cup Challenge races in the corresponding Breeders' Cup division. If there are less than seven Challenge winners, the next horses will be ranked at pre-entry based on the total number of Graded Stakes points they have collected during the year until a maximum of seven or six horses have been ranked based on Breeders' Cup Challenge races and Graded Stakes points. All horses will need to accumulate a minimum of six (6) points in American and/or Canadian Graded Stakes races to be considered to receive an automatic selection on points in any Championships race with the exception of the four Juvenile races. In the four Juvenile races, horses will need to accumulate a minimum of four (4) points in American and/or Canadian Graded Stakes races to be considered to receive an automatic selection on points.

The horses remaining after the first seven or six (or all Challenge winners, whichever is greater) in oversubscribed fourteen or twelve horse fields at the time of pre-entry will be ranked in order of preference by the Panel. The Panel will be free to establish its own criteria or ranking so that high-quality horses of demonstrated ability will have the opportunity to participate in Championships races regardless of earlier participation in graded events.

Horses will be allowed to pre-enter a maximum of two races. The races in which the horse pre-enters must be designated in order of choice at the time of pre-entry on October 23, 2017. Performance in Breeders' Cup Challenge races and points earned in American Graded Stakes races and/or Canadian Graded Stakes races have no bearing on a given Championships race field unless the race is oversubscribed (more than fourteen or twelve pre-entered).

Once a horse has been ranked among the first 14- or 12-horses in its race of first choice at pre-entry, its ranking in its race of second choice will be based first on whether it won a Breeders' Cup Challenge race in the division of the second choice and then on the judgment of the Panel regardless of the number of points earned in American and/or Canadian Graded Stakes races. If a horse is not ranked among the first fourteen or twelve horses in its race of first choice and it did not win a Challenge race in its division of second choice, then its points earned in American and/or Canadian Graded Stakes races will be utilized for ranking in its race of second choice.

'Ties' at Pre-Entry

In the event more than fourteen or twelve horses are pre-entered in a particular Championships race and two or more horses are tied for the seventh or sixth highest number of American and/or Canadian Graded Stakes races points at the time of pre-entry, the Panel shall decide in its sole discretion which of those horses shall be the seventh or sixth highest point earner. Horses not selected shall then be ranked in order of preference by the Panel at its discretion.

Pre-Entry Rankings

The Panel will issue a list of all horses ranked in order of preference for each Championships race that is oversubscribed at the time of pre-entry. After pre-entry, any vacancies in the fields of oversubscribed races will be filled by horses in the Panel's order of preference as determined at pre-entry.

PAYMASTER OF PURSES

Paymaster of Purses

The Paymaster of Purses' office will be open from 9:00 am until after the last race on racing days to transact business with horsemen. The office is located near the Del Mar Frontside Racing office. Contact Bridget Crawford, (858) 794-1034 or Bridget@dmtc.com.

No purse money for any Breeders' Cup World Championships races will be released until cleared by the CHRB after all post-race testing is complete. Any test results that result in a positive for non-permitted substances will cause purse distribution to be placed on hold for the affected race.

The Paymaster of Purses will deduct from the owner's account and deposit into the trainer's account 10 percent (10%) of the purse earned on any horse that finishes first, second or third, subject to an opt-out provision made by the owner prior to the race. "Purse earned" means all amounts earned (excluding any applicable travel awards) less any nomination, entry or start fees paid by the owner. All owners have the right to opt out of this program if they so choose. To do so, file CHRB Form 134 located on page 114 of this Horsemen's Information Guide with the Paymaster of Purses at Del Mar. This form may be faxed to the Paymaster at Del Mar, fax (858) 794-1049 or by e-mail: bridget@dmtc.com.

Please note that if you file a CHRB Form 134 to opt out of this automatic payment, (a) it will apply to all horses you own any part of, (b) it will be binding on all partners on those horses, (c) it will apply to all trainers you employ and (d) it will remain in force until you submit a written revocation to the Paymaster at the race meeting where the form was submitted.

Owners and trainers are required to file their complete address information and U.S. Tax Reporting Number. Owners must deposit jockey fees and all fees for stakes engagements prior to post-time of their race. In the event the parties reach an agreement with respect to the fee paid to the jockey, said agreement or contract must be signed by all parties and delivered to the Paymaster of Purses prior to the running of the race in question. If no contract or written agreement is submitted prior to the race in question, the Paymaster of Purses shall debit the owner's account in accordance with the fee scale set forth in Section 1632 of the Rules and Regulations of the California Horse Racing Board.

All Breeders' Cup World Championships owners should deposit a \$177 jockey mount fee prior to entry for the races.

PAYMASTER OF PURSES

Note | United States Non-Residents - The Internal Revenue Service requires that the race-track withhold 30 percent on any gross purse earnings or travel awards to a non-resident of the United States in the absence of a Form W8BEN or W8ECI placed on file with the Paymaster of Purses. Forms are available through the Del Mar Paymaster, Breeders' Cup Limited or the International Racing Bureau.

Signed W-9 Forms must be in the office of the Paymaster of Purses prior to any purse money being distributed. If no form is present, 30 percent of the purse will be held until the form is completed.

Non-California resident owners, trainers and jockeys will have seven percent of all purse money deducted for State of California taxes.

Attention Owners: CHRB rule 1970. Wagering on Competing Horse.

No owner, authorized agent or trainer having a horse entered in a race shall wager on, or include in any wager, any other horse competing in such races to finish first regardless of whether such wagers are "exotic" or "conventional." No employee or representative of any owner, authorized agent or trainer having a horse entered in a race shall wager on, or include in any wager, any other horse competing in such race to finish first regardless of whether such wagers are "exotic" or "conventional."

Amendment to Rule 1467, Paymaster of Purses

The amendment which became effective May 8, 2008, requires the Paymaster of Purses to deduct 0.3 percent of the net purse earned by any thoroughbred horse at a thoroughbred racing association or racing fair for deposit into the California Retirement Management Account (CARMA).

A horse owner may 'opt-out' of the CARMA deduction by submitting a form CHRB-206 Notification of Exclusion of CARMA contribution. (Form is located on page 115 of this guide.) The form must be submitted at each live racing meeting at which the owner participates. A horse owner who has not submitted a form CHRB-206 with the Paymaster at the track in which their horse is competing will be subject to the 0.3 percent CARMA deduction.

2017 Breeders' Cup Challenge "Win & You're In" Series

PRESENTED BY
LANE'S END AMERICA'S BEST RACING

The 2017 Breeders' Cup Challenge Series is a "Win & You're In" program. With 81 races selected worldwide in every Championships division, owning a Breeders' Cup nominated runner is more important than ever.

In 2017, any nominated horse that wins a Challenge race will receive:

- An automatic starting position in the corresponding Championships race.
 - Pre-entry and entry fees paid.
- A nominator award of \$10,000 to the person nominating the foal or Horse of Racing Age.

All Championships starters will receive:

- A travel allowance of \$10,000 for North American runners and \$40,000 for international runners when they start in the Breeders' Cup World Championships will be awarded (if stabled outside of California).

Breeders' Cup Challenge Series: Win and You're In, presented by Lane's End Farm and America's Best Racing on NBC Sports

This year's Breeders' Cup Challenge Series, now in its fourth year on NBC and NBCSN, features a schedule of 11 live programs featuring 17 qualifying races and other major stakes on the road to the Breeders' Cup World Championships. Del Mar is the home of this year's Breeders' Cup World Championships, November 3-4, which will also be televised live by the NBC Sports Group.

Breeders' Cup World Championships offer 13 Championships races and \$28 Million in purses and awards each year. When combined with the Challenge program benefits, it makes nearly \$30 Million in purses and awards available for Breeders' Cup nominated horses each year. All horses must be nominated in order to compete in the Championships.

In the event a designated Breeders' Cup Challenge turf race (Turf Sprint, Juvenile Turf, Juvenile Fillies Turf, Filly and Mare Turf Division, Turf Division or Mile Division) is taken off the turf, due to unsafe racing conditions, the horse that wins the 'off the turf' race will NOT receive an automatic qualifying position and will NOT receive the starting fees (the total of pre-entry and entry fees) to enter the Breeders' Cup World Championships in the applicable Turf Division race; provided, however, that Breeders' Cup Limited may, at its option, reinstate the "Win and You're In" status of the "off the turf" race. The decision to take a Breeders' Cup Challenge Division turf race off the turf course is under the sole discretion of the racetrack/racing association, not Breeders' Cup Limited.

All Challenge winners are subject to out-of-competition testing. All runners are subject to out-of-competition testing by the CHRB and/or BCL. See rules on pages 83 and 84. No runners may compete if they have tested positive for anabolic steroids or other ARCI prohibited substances in the six months prior to the BCWC.

LICENSING/INSURANCE

Important California Horse Racing Board Requirements and Pertinent Regulations

The following guidelines are designed to help expedite your licensing and registration procedures on arrival in California. For a complete set of California Horse Racing Board Rules and Regulations, prior to October 25, contact the CHRB office at (626) 574-7223, ext. 6348. Internet: www.chrb.ca.gov.

Licenses

Owner and Employee Licensing

All owners, trainers, jockeys, grooms and others acting in any capacity within the stable area, or anywhere at Del Mar, are required to procure the appropriate license or licenses and pay the fees required. All new applicants must be fingerprinted and photographed before licenses can be formally issued. Application can be in person, by mail, on-line and by fax. All licenses are issued at the office of the California Horse Racing Board (CHRB), located near the Stable Gate (3) (see stable area map on page 124), at Del Mar. Beginning October 25, the licensing office will be open Wednesday through Sunday, 8:00 am to 3:30 pm. daily. During Breeders' Cup week the office will be open Monday, October 30 through Friday, November 3, 7:30 am to 4:30 pm. On Saturday, November 5, hours revert back to 8:00 am to 3:30 pm. Phone: (858) 755-1141 x3885.

Every person who appears on the ownership papers of a horse must be licensed. If the legal owner of a horse is a corporation, the corporation shall appoint a responsible managing employee who may be granted a license as a horse owner. Said managing employee accepts and assumes all responsibilities of an owner.

All general partners are required to be licensed, irrespective of the percentage of partnership held. No limited partner may be granted a license as horse owner.

No stable name registration may be used for advertising purposes. A stable name which has already been registered may not be registered by another owner.
- (b) The granting of a stable name registration by the CHRB shall not relieve any person from his obligation to file or register a fictitious name as provided by the laws of the State of California.

- (b) A stable name registration may be abandoned, or an expired stable name registration may be transferred to a new owner by giving written notice to the CHRB and to the Stewards. A stable name registration that has expired and has remained unregistered for at least three consecutive years shall be considered abandoned.
- (c) Any change in ownership, in whole or in part, of a currently registered stable name shall be immediately reported in writing to the CHRB and to the Stewards. If the stable consists of multiple owners, the notification must be signed by at least the designated person responsible for the stable's conduct as listed on the stable name registration form and the person whose name is being removed or added. A signature must be notarized if the person who signs is not present when the notification is presented to the CHRB.

International Air Transportation

Breeders' Cup Limited in conjunction with Mersant International will help coordinate flight arrangements for horses pre-entered in the Championships. The aircraft will likely depart Saturday, October 28, from a city to be determined, depending on the location of the participants, and will arrive in California that evening at San Diego International Airport, which is approximately 30 minutes from Del Mar. After the mandatory 42 hours quarantine, the horses will be able to train Tuesday, October 31. Breeders' Cup will provide a travel award of \$40,000 (US) for each starter that travels to California to compete in a Breeders' Cup World Championships race from a location outside of North America. This award will be distributed when purses are approved for payment and will be deposited into the owner's account at Del Mar.

Horses pre-entered in a Breeders' Cup World Championships race have first preference on the arranged flights over horses on the also-eligible list or horses nominated for undercard stakes at the host track.

Due to space limitations on the arranged flights, trainers are not guaranteed passage for any grooms regardless of the numbers of runners. Professional grooms will accompany the runners.

Please contact or have your shipping agent contact Mersant International to register your interest and to make your flight arrangements: (718) 978-8200.

Quarantine

Horses arriving from foreign countries (with the exception of countries in South America and South Africa) by charter or scheduled aircraft will be flown directly to San Diego International Airport. The horses will be escorted by United States Department of Agriculture personnel to the USDA quarantine facility in barns EE, FF & GG (see stable map on page 124) at Del Mar where a federal veterinarian will test horses under conditions that apply at the time of arrival.

INTERNATIONAL RUNNERS

All required testing procedures will be expedited but horses will not be able to clear quarantine before 42 hours after arrival at the quarantine facility. The quarantine facility contains a walking area satisfactory for horses to utilize prior to being released from quarantine.

After negative test results are received and a mandatory 42 hours have passed, the horses will remain in barns EE, FF & GG, which will then be dedicated as the isolation barns for purposes of permitting horses released from quarantine to meet re-entry requirements into their respective countries.

All horses arriving on any chartered or commercial aircraft must be pre-blood tested for all United States import requirements at the National Veterinary Services Laboratories (NVSL) in Ames, Iowa prior to departure in order to be permitted access to the quarantine barns at Del Mar.

Only those horses pre-entered in one of the Breeders' Cup World Championships races or nominated for Del Mar's additional stakes races will be permitted in the quarantine barn. In addition, only those horses traveling with a groom will be permitted in the quarantine barn.

Breeders' Cup Limited and/or Del Mar Thoroughbred Club reserve the right, in their sole discretion, to refuse the shipping and/or entry of any horse into the private quarantine barns at Del Mar.

Since the quarantine barns are established on a temporary basis and contain only five units, specific shipping dates will be established. Owners and trainers and/or their appointed agents should contact Mersant International, Ltd. at (718) 978-8200.

The USDA veterinarian in charge is Linda O. Anciano, DVM. She will be available to assist owners and trainers whenever possible. Private veterinarians will be on call 24 hours a day.

There are few exceptions. **Only water may be administered on race day to wash a horse's mouth.** Throat flushes, no matter how innocuous their ingredients are not excepted. This includes old-time remedies containing menthol, oil of wintergreen, oil of eucalyptus, camphor or any similar products, "natural" or otherwise, including peppermint. **Horses will be scratched for violation of this rule.**

RACE DAY PROCEDURES

Race Day Assembly Barn Policy

In order to expedite the transit of horses from the barn area to the paddock for saddling and to draw blood for TCO2 testing, the California Horse Racing Board requires that all horses report 45 minutes prior to post in the Assembly Barn (Barn Z). Upon arrival at the Assembly Barn, the horse identifier will verify each horse's identity and the association farrier will examine each horse's shoes and the CHRB veterinarian will supervise the blood draw for TCO2 testing. At approximately 25 minutes to post, horses shall proceed to the paddock (in program number order).

Change of Equipment

Trainers must be consistent in the use of equipment (e.g., blinkers, screens, closed cups). Permission to change that equipment must be obtained from the Stewards and must be obtained before entry time. All equipment changes must be declared at entry. All articles of equipment in which a horse races must be in proper position when the horse leaves the paddock for the post.

All horses will carry their equipment to post.

Blinkers

Permission for a horse to add blinkers to his equipment or to discontinue the use of them must be approved by the Starter/Paddock Judge before being granted by the Stewards.

Pony Persons and Grooms

All grooms and handlers should be neatly dressed when taking horses to the paddock. Jackets will be provided by the Breeders' Cup Racing Office prior to the Breeders' Cup World Championships and must be worn by the groom, hotwalker and exercise rider when bringing the horse to paddock on race day. Pony riders taking horses to the post in the public parade on Championships days must wear saddle towels, cap covers and jackets provided from the Breeders' Cup Racing Office and must keep themselves and their mounts well-groomed and their tack clean. It is requested that pony riders wear khakis and white shirts on each Championships day. **Ponies will not be allowed on the turf course.**

A **Breeders' Cup Best Turned Out Award Presented by Adequan**, will be decided before each Championship race and awarded to the groom of the Best Turned Out horse prior to the running of their

race. The winning grooms will receive a customized blanket and cash prize for their accomplishment.

RACE DAY PROCEDURES

Scratches

Scratch time for Breeders' Cup World Championships Friday and Breeders' Cup World Championships Saturday will be 8:00 am (PDT) on Friday, November 3. Please see section on Refunds of Horses of Racing Age Nominations, page 16, and refunds of pre-entry and entry fees on page 18. Pre-entry, entry and Horses of Racing Age nominations will not be refunded for the race in which the owner of a double-entered horse elects not to compete.

Any horse scratched after scratch time must file, in writing, such intention with the Stewards. Upon receiving a scratch from a stakes race, the Stewards shall promptly notify the pari-mutuel manager and shall cause a public announcement of the same to be made.

Paddock Passes

Individual paddock passes will be required for all 13 of the Breeders' Cup World Championships races. Championship Paddock passes will be issued only through the Breeders' Cup Racing Office located near the west end of the Grandstand at Del Mar beginning Wednesday, November 1, 7:00 am (PDT) at (859) 514-9422. All persons accompanying a horse to the paddock must be issued a paddock pass.

Jockeys

Duty to Fulfill Engagements

Every rider shall fulfill his duly scheduled riding engagements, unless excused by the Stewards. A rider shall not be required to ride a horse he believes to be unsound, nor over a racing strip he believes to be unsafe, but if the Stewards find a rider's refusal to fulfill a riding engagement is based on a personal belief unwarranted by the facts and circumstances, the rider may be subject to disciplinary action.

Jockey Appearance and Attire

In riding, a jockey must be neat in appearance. He or she must wear conventional attire and the racing colors of the owner for whom he or she is riding.

Rule 1689. Safety Helmets Required.

(a) A racing association, fair, or authorized training facility may not permit any person to be mounted on a horse on the racetrack, be mounted in or riding on a sulky, or work as a member of the gate crew unless the person is wearing a properly fastened safety helmet. (1) For purposes of this regulation, a member of the gate crew means any person licensed as an assistant starter or any person who handles a horse at the starting gate. (2) For purposes of this regulation, "racetrack" means the surface of the racing or training track. (b) Safety helmets required under subsection (a) of this rule shall comply with one of the following product standards: (1) American Society for Testing Materials (ASTM) standard F-1163-04a, or (2) European Standard (EN) 1384:1996, or (3)

RACE DAY PROCEDURES

Australian and New Zealand Racing Boards (AS/NZS) standard 3838:2006, or (4) Snell Memorial Foundation (Snell) Standard for Protective Headgear H2000.

Rule 1689.1 Safety Vest Required.

(a) No jockey or apprentice jockey shall ride in a race unless wearing a safety vest, nor shall a jockey, apprentice jockey, or exercise rider, train or exercise any horse on the grounds of a racing association, racing fair, or authorized training facility unless wearing a safety vest. (b) No driver shall be mounted in or riding on a sulky, nor shall an assistant starter handle any horse on the grounds of a racing association, racing fair, or authorized training facility unless wearing a safety vest. (c) Safety vests required to be worn in accordance with this regulation shall: (1) Provide a minimum of shock absorbing protection to the upper body, as evidenced by a label indicating that the safety vest meets one of the following standards: (A) "Level 1" under the British Equestrian Trade Association (BETA) 2009 Standard for Horse Riders' Body and Shoulder Protectors, or (B) American Society for Testing Materials (ASTM) standard F2681-08, or (C) Shoe and Allied Trades Research Association (SATRA) (1999) Jockey Vest Standard, Document M6 Issue 3, Australian Racing Board (ARB) 3. (2) Cover the entire torso from the collarbone to a line level with the hip bone allowing a vee opening in the front neckline; (3) Weigh no more than 2 pounds. (4) No vest shall be altered from its original manufactured design. This includes, but is not limited to: (A) Cutting the vest to customize fit. (B) Removal of manufacturer's labels. (C) Removal of protective padding. (d) The weight of a safety vest shall not be included in the weight of a jockey or apprentice jockey when weighing out or weighing in or when adding weight to make up a weight assignment.

Rule 1682. Weighing Out.

All jockeys taking part in a race must be weighed out by the clerk of scales no more than one hour preceding the time fixed for the race. Any overweight in excess of one pound shall be declared by the jockey to the clerk of scales, who shall have such overweight and any change to jockeys posted immediately for public information and announced over the public address system.

Rule 1701. Weighing In.

A jockey shall weigh in after the finish of the race and he shall not weigh less than one pound of his proper weight nor two pounds over his proper weight except that the Stewards may take into account any excess weight caused by rain or mud. The Stewards may disqualify any horse whose jockey weighs in at less than one pound of his proper weight, and shall discipline the persons responsible therefor.

Rule 1683. Maximum Overweight.

No horse shall carry more than two pounds overweight without consent of its owner, his agent, or his representative, but shall not carry more than seven pounds overweight in any race.

RACE DAY PROCEDURES

Rule 1684. Items Included in Weight.

A jockey's weight includes his riding clothing, saddle and pad. It shall not include the jockey's safety helmet, safety vest, whip or the horse's bridle.

Rule 1686. Responsibility for Weight.

The trainer and owner shall be responsible for the weight carried by the horse after the jockey has been weighed out for the race by the clerk of scales. The trainer or owner may substitute a jockey when the engaged jockey reports an overweight in excess of two pounds.

Rule 1687. Deposit of Jockey Fee.

The minimum jockey mount fee (currently \$177) for a losing mount in the race must be on deposit with the paymaster of purses, except for a jockey riding for his contract employer, prior to the time for weighing out, and failure to have such minimum fee on deposit is cause for disciplinary action and cause for the Stewards to declare the horse for which such fee is to be deposited. The association assumes the obligation to advance the minimum jockey fee to the engaged jockey in the absence of a declaration of the horse from the race, and any such advanced fee is a lien upon the horse.

Rule 1688. Use of Riding Crops.

- (a) In all races where a jockey will not ride with a riding crop, an announcement shall be made over the public address system of such fact.
- (b) Although the use of a riding crop is not required, any jockey who uses a riding crop during a race is prohibited from using a riding crop:
 - (1) on the head, flanks, or on any part of its body other than the shoulders or hind quarters;
 - (2) during the post parade except when necessary to control the horse;
 - (3) excessively or brutally causing welts or breaks in the skin;
 - (4) when the horse is clearly out of the race or has obtained its maximum placing; or
 - (5) persistently even though the horse is showing no response under the riding crop.
 - (6) more than three times in succession without giving the horse a chance to respond before using the riding crop again.
- (c) Correct uses of the riding crop are:
 - (1) showing horses the riding crop before hitting them;
 - (2) using the riding crop in rhythm with the horse's stride; and
 - (3) using the riding crop as an aid to maintain a horse running straight.

Rule 1971. Wagering by Jockey or Driver.

No jockeys or drivers shall make any wagers, or have any wagers made in their behalf, in any race in which they participate, except through the owners or trainers on the horses which they ride or drive. Any owners or trainers wagering for such jockeys or drivers shall maintain records of all such wagers and all other presents or other gratuities given any jockeys or drivers. Such records will be furnished to the Stewards or the Board or its investigators upon demand.

MEDICATION, TESTING & SAFETY

Breeders' Cup Prohibited Substances Rule

For any horse participating in a Breeders' Cup World Championships race that is found by the racing regulatory agency in the jurisdiction where the race is conducted to have tested positive for any substance listed under Class 1 or Class 2 in the *Association of Racing Commissioners International Uniform Classification Guidelines for Foreign Substances* or to have violated the anabolic steroid rule in effect where the race is conducted, in addition to any penalties imposed by the racing regulatory agency in the jurisdiction, the following sanctions shall be imposed:

- (i) the horse shall be disqualified to last in the race and any purse earned by the horse shall be forfeited and redistributed in accordance with the revised order of finish;
- (ii) in the event of a first violation of the prohibited substance rule in a Breeders' Cup World Championships race, the horse's trainer and all horses directly or indirectly in such trainer's care shall be ineligible to participate in the Breeders' Cup World Championships races conducted in the year immediately following the final determination that such trainer's horse violated the prohibited substance rule;
- (iii) in the event of a second violation of the prohibited substance rule by a trainer in a Breeders' Cup World Championships race, the trainer and all horses directly or indirectly in such trainer's care shall be ineligible to participate in the Breeders' Cup World Championships races conducted in the two years immediately following the final determination that such trainer's horse violated the prohibited substance rule a second time;
- (iv) in the event of a third violation of the prohibited substance rule by a trainer in a Breeders' Cup World Championships race, the trainer and all horses directly or indirectly in such trainer's care shall be ineligible to participate in all Breeders' Cup World Championships races conducted for the remainder of such trainer's life following the final determination that such trainer's horse violated the prohibited substance rule a third time.

Convicted Trainers Rule

No person may participate as a trainer of a horse pre-entered or entered in a Breeders' Cup World Championships race if that person, during the twelve months preceding the World Championships, has been found by any racing regulatory agency, whether a governmental agency or a non-governmental regulatory body, to have violated a racing regulation prohibiting or involving the possession or use of any substance listed under Class 1, carrying Category "A" or "B" penalties, or Class 2, carrying a Category "A" penalty, in the *Association of Racing Commissioners International Uniform Classification Guidelines for Foreign Substances* or a racing regulation prohibiting the possession or use of steroids and the appeal periods for such finding shall have expired or all appeals, if any, will have received final disposition (a "Drug Conviction").

A person associated with a trainer who has a Drug Conviction in the twelve months preceding the World Championships may not participate as a trainer of a horse that was in the care, custody and control of the convicted trainer at the time of the Drug Conviction and that is pre-entered or entered in a race during the next World Championships. A person is associated with a trainer if such person

MEDICATION, TESTING & SAFETY

was an assistant to, or employee of, the trainer or related to the trainer by blood, or by marriage or domestic partnership, or who is related by blood to the spouse or domestic partner of such trainer at the time of the Drug Conviction and has assumed the responsibility of the care, custody and control of all or any of the horses that were in the care, custody and control of the trainer at the time of the Drug Conviction.

A horse that has a positive test result for any substance listed under Class 1, carrying Category “A” or “B” penalties, or Class 2, carrying a Category “A” penalty, in the Association of Racing Commissioners International Uniform Classification Guidelines for Foreign Substances or a racing regulation prohibiting the possession or use of steroids that leads to a Drug Conviction shall not be eligible to participate in the Breeders’ Cup World Championships races immediately following the Drug Conviction.

In the event a trainer has two Drug Convictions after May 1, 2012, such trainer may not participate as a trainer of a horse pre-entered or entered in a World Championships race during the next two Breeders’ Cup World Championships following the second of the two Drug Convictions.

In the event a trainer has three or more Drug Convictions after May 1, 2012, such trainer may not participate as a trainer of a horse pre-entered or entered in a World Championships race during any Breeders’ Cup World Championships following the date of the third Drug Conviction.

Drug Testing

Out of Competition Testing – CHRB

The CHRB conducts out of competition (OOC) testing of horses under the CHRB’s jurisdiction and entered to race. The primary focus of OOC testing for the Breeders’ Cup World Championships will be for Epogen, darb-EPO, and other blood doping agents but the CHRB may also test and prosecute for other drugs and substances including certain animal venoms, growth hormone and the beta-2 agonists ractopamine and zilpaterol under Rule 1867 and any other drugs or medications restricted by CHRB regulations including anabolic steroids. Out of competition testing may be conducted at any time. Rules 1858 and/or 1863 provide that every horse nominated, pre-entered or entered in a race is subject to testing and no owner, trainer or other person having the care of a horse shall refuse to submit it for testing when directed by the Stewards or the Official Veterinarian. Breeders’ Cup pre-entry is considered entry under this regulation. Racing officials from other state jurisdictions and internationally will assist the CHRB in obtaining blood samples for OOC testing. Horses must be timely produced for testing if requested. A horse is not eligible to start unless the owner and trainer comply with any pre-race testing request. A horse testing positive for Epogen, darbEPO or other blood doping agents or other prohibited substance will initiate regulatory action. If a violation is determined, serious penalties may be imposed, including fines and suspension or revocation of licenses.

MEDICATION, TESTING & SAFETY

Breeders' Cup Out of Competition Testing

Breeders' Cup Limited will be conducting out of competition (OOC) testing on all 2017 Challenge winners and any other possible starters prior to the Breeders' Cup World Championships, this testing is separate from what the California Horse Racing Board may perform. The Breeders' Cup OOC testing will be performed by the The Kenneth L. Maddy Equine Analytical Chemistry Laboratory at UC Davis. Routine testing at the Maddy Lab meets or exceeds the protocols established by TOBA and required by Breeders' Cup World Championships to ensure that the highest possible level of testing is performed on all samples.

The primary focus of OOC testing for the Breeders' Cup World Championships will be for Epogen, darb-EPO, and other blood doping agents including certain animal venoms, growth hormone and the beta-2 agonists ractopamine and zilpaterol, anabolic steroids and any other drugs or medications restricted by CHRB regulations. Out of competition testing may be conducted at any time. Racing officials from other state jurisdictions and internationally will be asked to assist BCL in obtaining blood samples for OOC testing. Horses must be timely produced for testing if requested. A horse may be prevented from entering unless the owner and trainer comply with any pre-race testing request. A horse testing positive in the six months prior to the BCWC for anabolic steroids, Epogen, darbEPO or other blood doping agents or other ARCI prohibited substance will be prohibited from entering the BCWC races in the same calendar year.

Breeders' Cup Condition of Entry

As a condition of entry for any BCWC race, no horse within six months of the BCWC shall test positive for any anabolic steroid or any other prohibited substance described under the ARCI prohibited substance list. Any horse testing positive for anabolic steroids or other ARCI prohibited substances in a BCL out-of-competition test sample during the six-months prior to the BCWC will be ineligible to participate in BCWC.

CHRB Medication Rules & Regulations

The Breeders' Cup World Championships will be run in accordance with the rules of racing of the State of California and as promulgated by the California Horse Racing Board (CHRB).

A complete listing may be obtained at www.chrb.ca.gov.

Important Information for Horsemen

Prior to October 30, if you have any questions concerning any medication rules or veterinary issues, please contact CHRB official veterinarian Dr. Tim Grande at (626)-574-6355 or CHRB equine medical director Dr. Rick Arthur at (626) 574-6351. CHRB Safety Steward Luis Jauregui at (626) 574-6349 is also familiar with CHRB medication policies and related stable procedure regulations.

MEDICATION, TESTING & SAFETY

Bleeder Registration

All horses must be registered with the California Horse Racing Board (CHRB) **by entry time** to receive Lasix even if they have run elsewhere as a bleeder. This is a required process for a horse to be treated with Lasix in California and is simply accomplished by submitting form CHRB-194 to the official veterinarian. The form CHRB-194 is available at the Receiving/Assembly Barn and on page 116 of this guide.

Race Day Lasix Administration for Breeders' Cup Races

Bleeder medication is limited to Lasix and only Breeders' Cup authorized veterinarians will be allowed to administer Lasix on race day in Breeders' Cup races. The standard Lasix dose will be 5cc (250mg). The CHRB allows a single IV dose of Lasix of between 150mg (3cc) and 500mg (10cc). Trainers must consult with the Breeders' Cup or CHRB racing official veterinarians concerning Lasix administration. A Breeders' Cup Lasix veterinarian will be in the stable area on the Wednesday and Thursday before Breeders' Cup for consultation concerning Lasix dosages. Trainers are reminded that higher Lasix dosages may affect TC02 levels. Lasix will be administered between 4 and 4 ½ hours prior to race time. Lasix cannot be administered within 4 hours of post time. By regulation, an attendant must be present at the time the Lasix is administered. The attendant will be required to sign CHRB Bleeder Treatment form (CHRB-36) after the Lasix is administered. Horses receiving Lasix on race day are assigned to a pre-race security stall by regulation which is designated by a yellow detention stall placard available at the Assembly Barn. The CHRB detention signage for Lasix horses is in addition to the Breeders' Cup signage.

Race Day Bleeder Medication Administration for Non-Breeders' Cup Races

Non-Breeders' Cup races will be run under standard CHRB policies. The attending veterinarians will be responsible for authorized bleeder medications for those races.

TC02 Testing

All horses in every race will be sampled and tested for TC02. The CHRB has a very tight regulation for TC02. The permitted level is 37mmol/l whether a horse receives furosemide or not. All horses will be tested as they enter the Assembly Barn for their race, about 45 minutes pre-race. Exceeding 37mmol/l is a Class 3 violation requiring purse redistribution and is a Category B penalty for the trainer. While not specifically prohibited under CHRB regulations until 24 hours prior to post time, electrolytes with or without alkalinizing agents-bicarbonate or otherwise, should be used with caution especially if a horse is on the bleeder's list. Regardless, electrolytes cannot be administered by nasogastric tube within 48 hours of post time of the race.

Nasogastric Tubing of Electrolytes

Nasogastric (tubing) administration of any substance or medication is prohibited within 48 hours of post time of the race in which a horse is entered.

MEDICATION, TESTING & SAFETY

Water Only on Race Day

This is a very strict and clear rule. Nothing other than water can be used to flush a horse's mouth on race day. Wind Aid, glycerin or anything other than water will result in a scratch. Horses have been scratched from Grade I events for this violation and the policy will be the same for the Breeders' Cup World Championships.

NSAID Medications

One of three NSAIDs are allowed as long as they are administered outside of 24 hours prior to post time and do not exceed permitted threshold levels in post race testing. The permitted NSAIDs are phenylbutazone, flunixin (Banamine) or ketoprofen. Only one approved NSAID may be present in the post race blood test. Phenylbutazone cannot exceed 2micrograms/ml; flunixin cannot exceed 20 nanograms/ml and ketoprofen cannot exceed 2 nanograms/ml. For phenylbutazone, a 2gm (10 cc) dose of phenylbutazone at 28-30 hours prior to racing or a 1.5gm (7 cc) at 24 hours prior to racing will avoid an inadvertent phenylbutazone violation. The RMTTC recommendation for flunixin is 32 hours at a 1.1mg/kg (1 gm/10cc) to safely avoid an inadvertent violation. A 2.2mg/kg dose (10cc @ 100mg/ml) IV dose will not exceed the 2ng/ml threshold at 24 hours. ONLY one of these three NSAIDs can be present in the post-race blood sample. Contact your private veterinarian, CHRB official veterinarian Dr. Grande or CHRB equine medical director Dr. Arthur if you have any questions.

No Medications Allowed after Entry

No medication may be administered after entry except as specifically authorized in the rules and there are few exceptions. The relevant CHRB rules are 1843, 1844 & 1845. They are available at www.chrb.ca.gov; go to Horse Racing Rules. You may also contact your private veterinarian, CHRB official veterinarian Dr. Grande or CHRB equine medical director Dr. Arthur if you have any questions. Entry for the purposes of this rule is defined as 48 hours prior to the post time of the race the horse is entered to race.

Authorized (Controlled) Medications

The CHRB adopted the National Uniform Medication program for therapeutic medications as of October 1, 2014. Those regulations can be found on the CHRB website (http://www.chrb.ca.gov/rules_law.html; go to Rule Number ; go to > 1844). The RMTTC's recommended withdrawal times for the controlled therapeutic medications is listed on page 88 of this guide and can be found at <http://rmtcnet.com/wp-content/uploads/2016/02/CTS-List-2-25-2016.pdf>. Trainers are advised to consult their veterinarians on the use of all medications or CHRB official veterinarian Dr. Grande or CHRB equine medical director Dr. Arthur if there are any questions.

Prescription Medications

The only prescription medications allowed at CHRB racing enclosures are prescriptions by CHRB licensed veterinarians that have been labeled according to CHRB regulations and properly reported to the official veterinarian. All other prescription drugs are contraband. Please contact the CHRB licensed practicing veterinarian attending your horse concerning any prescription drugs you may need or may have brought with you.

MEDICATION, TESTING & SAFETY

Procaine Penicillin

The CHRБ offers free testing for procaine in horses treated with procaine penicillin and has done so for years. Any horse treated with procaine penicillin in the last 30 days should be tested. The CHRБ has a provision which allows a horse treated with procaine penicillin to participate in races under certain conditions. Contact CHRБ official veterinarian Dr. Grande or CHRБ equine medical director Dr. Arthur if there are any questions.

Geldings

Even though highly unlikely in Breeders' Cup races, trainers are reminded a first-time gelding must be reported to the racing office and Horse Identifier when entered.

Clenbuterol

California has adopted the national uniform medication program threshold for clenbuterol in urine at 140 picograms/ml as of October 1, 2014. The RМTC recommends a 14 day withdrawal time at the typical 0.8mcg/kg (5cc) twice a day oral dose of Ventipulmin. Horsemen are reminded clenbuterol is a Class 3 drug requiring a purse redistribution in the event of a violation. The CHRБ offers pre-race testing for clenbuterol. There are time constraints related to this program in terms of shipping and testing the samples. Contact CHRБ official veterinarian Dr. Grande or CHRБ equine medical director Dr. Arthur if there are any questions.

Breeders' Cup Condition of Entry

As a condition of entry for any BCWC race, no horse within six months of the BCWC shall test positive for any anabolic steroid or any other prohibited substance described under the ARCI prohibited substance list. Any horse testing positive for anabolic steroids or other ARCI prohibited substances in a BCL out-of-competition test sample during the six-months prior to the BCWC will be ineligible to participate in BCWC.

Shoe Policy

Restrictions on horse shoes are in place for Breeders' Cup and Del Mar races. Refer to the Del Mar condition book or contact Horseshoe Inspector Victor Tovar at the Assembly Barn if you have any questions. Toe grabs cannot exceed 4mm on the front shoes for main track races by CHRБ regulation or Queens or Queen XTs on the turf course by Del Mar policy.

MEDICATION, TESTING & SAFETY

RMTC Approved Controlled Therapeutic Medications

WARNING: The information on the Racing Medication and Testing Consortium Therapeutic Medications List does not constitute and is not a guarantee, warranty or assurance that the use of any of the therapeutic medications at the dosage and withdrawal time listed will not result in a positive post-race test. The Racing Medication and Testing Consortium is not responsible for results differing in any way from those herein. Use of this document and its information does not lessen or relieve any trainer's responsibility for affirming that, during a horse race, a horse is free of any therapeutic medication listed in his or her state's racing commission rulebook, and for complying with provisions of the state racing commission's regulations. Owners, trainers or any other persons responsible for the care of a racehorse are strongly advised to consult a veterinarian and the state racing commission regulatory veterinarian for guidance and advice on the use and withdrawal times of all therapeutic medications, as testing methodologies may change with little or no notice. The guidelines provided in this document are not consistent with foreign regulations or laboratory methods. PLEASE NOTE: These guidelines are based upon the administration of a single medication. Combining medications may significantly affect withdrawal times.

¹ Note: Withdrawal Guidelines are for informational purposes only. They do not constitute a guarantee. Additionally, this guidance is based upon administration of a single medication – the combination of any of these medications or addition of other substances may substantially affect the withdrawal times.

² Note: Administration of albuterol other than via intra-nasal routes is not recommended. Use of therapeutic doses of oral albuterol even outside of the recommended withdrawal guidelines carries a substantial risk of exceeding the regulatory threshold.

³ Note: Do not administer any avermectin drugs (including ivermectin) within 48 hours of a race if the horse has been administered cetirizine as it carries an increased risk of a concentration of cetirizine in excess of the regulatory threshold.

⁵ An oral dose may be utilized but longer withdrawal time may be required to fall below the threshold. Trainers using methocarbamol orally for multiple days are encouraged to have the horse tested prior to entry.

⁶ Trainers using methylprednisolone acetate outside the administration parameters described are encouraged to have the horse tested prior to entry to confirm the horse tests below the 100 pg/ml threshold in plasma/serum. See, Mid-Atlantic recommendations for methylprednisolone acetate at: <http://www.mdhorsemen.com/images/PDF/MRCBooklet.pdf> (page 4).

⁷ Note: At the 100 mg experimental dose, the safe time for administration to fall below the 100 pg/mL threshold was 21 days – a smaller dose may be utilized which may allow plasma concentrations to fall below the threshold in fewer than 21 days.

⁹ This withdrawal guideline is based upon the historic prohibition on administration within 24 hours of racing. Please note that intravenous administration at a dose of 4 mg/kg at 24 hours before racing may result in some phenylbutazone concentrations that exceed the regulatory threshold.

¹⁰ Requires: 1. Mandatory notification of procaine penicillin administration and 2. mandatory surveillance at the horse owner's expense for 6 hours before racing. Contact your local racing jurisdiction for specific procedures.

Breeders' Cup Pre-Race Inspection

Breeders' Cup Limited and the CHRB have assembled a team of impartial, experienced regulatory veterinarians who will be conducting a series of physical inspections in conjunction with the CHRB regulatory veterinarians, as well as observing each horse under tack during the week preceding the Breeders' Cup World Championships.

Horses will be inspected on multiple occasions in the days preceding their Championships races.

The cooperation of the horsemen in scheduling and having horses available and prepared (no bandages) will aid these team members in their task. If you would like to schedule the visit in advance, please contact Michael Gibbons at (856) 298-6831.

MEDICATION, TESTING & SAFETY

Race Day Inspections

The Horse Identifier and the Horseshoe Inspector shall examine each horse immediately prior to its race at the Race Day Assembly Barn (Barn Z). No horse shall be eligible to start in a race and shall be declared (scratched) by the Stewards if it is found not to be in serviceable, sound racing condition, not properly identified or improperly shod.

Racing Soundness Examination

On race day each horse shall be examined by a CHRB Veterinarian for racing soundness at some time during the morning. This examination will include observing the horse move at a trot. An attendant must remain with the horse until the examination has been completed. The Stewards may exclude the horse from racing if the CHRB Veterinarian finds the horse is not in serviceable, sound racing condition. Additional information regarding this exam will be provided to each trainer.

Post-Race Drug Testing

The Kenneth L. Maddy Equine Analytical Chemistry Laboratory at UC Davis is the official lab of the California Horse Racing Board. Routine testing at the Maddy Lab meets or exceeds the protocols established by TOBA and required by Breeders' Cup World Championships to ensure that the highest possible level of post-race testing is performed on all samples. The Maddy Lab is one of 10 laboratories accredited to RMTC racing laboratory standards and the only racing lab in the US certified by the IFHA. Blood and/or urine test samples shall be taken from the first four finishers in each Breeders' Cup World Championships race and any horse whose performance in a race, in the opinion of the Stewards, official veterinarian or equine medical director, warrants a post-race test. Every horse within the enclosure or entered in any race is subject to such tests, and no owner, trainer or other person having the care of a horse shall refuse to submit such horse for testing when directed by the Stewards or the Official Veterinarian.

For each horse tested, one portion of the test sample, called the split sample (aka "B" sample), shall be preserved by the CHRB. In the event of a positive test, the split sample shall be available for testing in accordance to CHRB Rule 1859.25. The CHRB retains frozen official samples for up to two years for retrospective testing.

A general description of the process can be found at www.chrb.ca.gov/misc_docs/drug_testing_enforcement_process.pdf.

Blood, urine, saliva or other biological specimens may be taken at the direction of the Stewards, official veterinarian or equine medical director at any time from horses within CHRB enclosures, nominated, pre-entered or entered in any race is subject to testing and no owner, trainer or other person having the care of a horse shall refuse to submit the horse for testing.

GENERAL INFORMATION

The Breeders' Cup World Championships Trophy

The Breeders' Cup World Championships Trophy is an authentic bronze reproduction of the original Torrie horse that was created in Florence by Giovanni da Bologna in the late 1580s. The horse is an ecorche, showing the muscles of the animal in detail. Its original purpose is unknown, though it may have been made as a study for the equestrian statue of Duke Cosimo I of Florence, cast in 1591. It reveals the influence and example of Leonardo da Vinci.

The most recent monumental equestrian sculpture in Florence, before that of Duke Cosimo I, had been da Vinci's never-completed monument to Giangiacomo Trivulzio. The Torrie horse bears a close relationship to several drawings by da Vinci related to this project in the collection of Her Majesty the Queen at Windsor. Other artists, too, knew and learned from da Vinci's study of the horse, but none came so close as Giovanni da Bologna to his vision of the beauty of the animal celebrated by art and science together. The original ecorche bronze horse of Giovanni da Bologna is in the Museum of Fine Arts at the University of Edinburgh in Scotland. The Edinburgh horse was acquired by Sir James Erskine of Torrie from the Villa Mattei in Rome, probably in 1803. He bequeathed it to the University of Edinburgh with the rest of his collection of old master paintings and bronzes, and it came into the possession of the University in 1836.

The Breeders' Cup Trophy was cast from the original and was directly supervised and approved by the University of Edinburgh for the use of Breeders' Cup Limited. The largest version of the trophy is permanently owned by the Breeders' Cup and will be displayed at Del Mar this year. Replicas are presented to the owners of the winners and breeders of each of the Breeders' Cup World Championships races every year. Trophies are also presented to the winning trainer, jockey and breeder/nominator.
